Sustainability First!
Combine washing and
distilling

Why a BKM?

EFFICIENT CLEANING:

Efficient interior and exterior cleaning (optional) of containers with rotating roller brush and separate spray system for washing and rinsing. Low emissions and fast drying thanks to separate wash solvent reservoir and rearward-sloping position of the washing chamber. Brush power and speed continuously adjustable.

EASY HANDLING:

Automatic washing program. Hydraulically operated door also serves as loading platform.

SAFE USE:

Explosion protection according to ATEX, category 1 (with type examination) for zone 0 inside, category 2 for zone 1 outside of machine.

ROBUST DESIGN

High-quality components like pumps and ventilators. Long life cycle with regular maintenance.

Accessory

- Outside cleaning
- Inside brush w/stainless steel bristles
- Floor pan for pit
- Barrier for pit
- Elevated installation without pit
- Self-cleaning device
- Bottom outlet cleaning
- Solvent cooling
- Inner exhaust
- Drying cabin
- External exhaust
- Solvent content concentration
- Touch panel options

“Numerous optional features allow for our product to be tailored precisely to your individual requirements – for maximum efficiency and optimum convenience.”
