

Remote Access for industrial IoT

For all machines with
PLC system

BENEFITS

Why choose remote access for your machine?

- Reliable platform Secomea
- Support from Renzmann in the case of machine issues
- Remote support for mechanic on site from Renzmann for troubleshooting / commissioning
- Timely support, particularly for machines directly integrated into production (e.g. manufacture of flexographic printing plates)
- Identification of problems so that on-site personnel can troubleshoot issues and replace equipment
- Control settings can be readjusted for machines with exhaust air control systems
- The load cell electronics for ROTOmAX distillation units can be checked
- Diagnostics and adjustments for machines with frequency converters for motor speed control, can be done

The remote maintenance router can be operated either via

- **LTE (Mobile) or**
- **LAN connection**
